

Adjustable Hamster - Daystate Huntsman Rifle

Thank you for your purchase. Please read these fitting instructions before attempting to fit the trigger.

Your kit should contain –
1 off Hamster plate with collar fitted
1 off post
1 off M8 x 35mm socket head screw
1 off 3mm allen key

Safety first.

Observe safe practices when handling your rifle and follow the manufacturer's safety instructions when doing so.

Take extra care when working on your rifle.

Ensure that the rifle is set with the safety catch set to safe and is absolutely not loaded with pellets.

Hamster Fitting.

1. Layout your rifle, preferably on a flat stable surface, and refer to the manufacturer's safety notes for when working on your rifle.

2. Ensure the safety switch is set to safe. Remove the stock retaining bolt and stock washer from the bottom of the stock with an allen key .

3. Take the new M8 x35mm screw/ feed through the bottom of the hamster post and fit to the stock. Firmly tighten in to position, but not too much.

Ensure the flat area on the post is to the left side of the stock.

4. Fit the hamster over the post and align so the M6 grub screw is on the flat section of the post.

5. Set the height to preference and tighten the side locking grub screw.
